

Complete Your Sage Abra HRMS Solution

With an Applianz System From HRMG Solutions, Inc.

The Total Business Solution in One Box.

IMAGINE accessing Sage Abra HRMS instantly from all of your locations and key employees working from home or on the road.

IMAGINE your business critical data being backed up nightly to a secure off-site location.

IMAGINE a lifetime system replacement guarantee (with CompleteAssurance).

IMAGINE all the PCs, Macs, server, firewalls, remote access and Windows licenses bundled together in one easy, simple box that sets up in minutes.

IMAGINE your business back up and running in less than a day in the event of a business interruption or disaster.

IMAGINE no more. The Applianz system is a revolutionary solution that makes installing sophisticated business software like Sage Abra HRMS as simple as plugging in a network device and following 3 easy screen prompts.

Our patent pending technology creates an entire business network entirely in software; saving you money on upgrades. By purchasing a pre-configured Applianz system you avoid the business disruption and expense usually associated with a new software roll-out.

And Applianz systems virtually take care of themselves. With our CompleteAssurance™ Service Plan (one year included with every system), new features and security updates are tested and automatically installed on your system, keeping your Sage Abra HRMS running smoothly and efficiently. And with CompleteAssurance, you get automatic offsite backups and disaster recovery services at no additional charge.

IMAGINE all this and more for your business. Call your sales consultant at HRMG Solutions, Inc. today at (610) 941-2119 and ask about a Sage Abra HRMS solution on an Applianz system for your business.
